About ICP and Prague

The 32nd ICP is organized by the Czech-Moravian Psychological Society, strongly supported by the Union of Psychologists Associations of the Czech Republic and the International Union of Psychological Science.

The 32nd ICP will take place in the wonderful city of Prague, the heart of Europe and the capital of the Czech Republic. Prague is the most attractive tourist and meeting destination in the Czech Republic.

The City of a Hundred Spires on the Vltava River is known to people from all over the world and ranks amongst the most beautiful cities in the world. The Old Town Hall with the famous Prague astronomical clock; the tapering lanes of the Jewish Quarter which echo from the pages of Kafka’s novels, are steeped in the legend of the Golem; the Gothic Charles Bridge and Church of St. Nicholas in the Lesser Town; the Palace Gardens set away from the bustle of the city; Petřín hill with its lookout tower reminiscent of the Eiffel Tower, and Prague Castle …

Each of Prague’s districts has its own characteristic atmosphere and unique charm. Prague presents itself to you as a dynamic city of alternating styles: romantic and successful, ancient and modern, but above all Prague is cosmopolitan through and through, and is used to welcoming foreigners. It’s time to get acquainted.

Let Prague inspire you, just as it inspired many of the world’s most significant artists and scientists in the past. Come for an experience that won’t be forgotten.

Organizers
Ladies and gentlemen, dear colleagues and friends:

It is my pleasure to invite you to the 32nd International Congress of Psychology that will take place in July 2020 in the beautiful city of Prague. With thousand years of remarkable history, Prague is renowned as a cultural center for its achievements in many spheres of the arts: architecture, music, sculpture and painting, to name but a few. Moreover, it stands out as a center of science and humanism. Many famous scientists and humanists lived and worked in Prague such as astronomers Tycho de Brahe and Johannes Kepler, religious reformer Jan Hus and anatomist and surgeon Johannes Jessenius (both also served as rectors of Charles University), philosopher and mathematician Bernardo Bolzano, physiologist Jan E. Purkyně, Czech Nobel prize winners Jaroslav Heyrovský and Jaroslav Seifert. Charles University also hosted Albert Einstein who lectured at the German part of Charles University.

Charles University is a symbol of the significant role Prague and Czech lands played in the region. Founded in 1348 by the Czech King and Roman Emperor Charles IV, it has long enjoyed an international reputation for the high quality of teaching and research offered there. Today, more than 51,000 students study at Charles University.

We could hardly find a more suitable place for the congress than Prague.

However, the Congress is not only about Prague, other cities and most notably the moravian university centers in Brno and Olomouc are renowned both for their outstanding scholarly traditions and dynamic scientific development.

Along with all Czech psychologists, we warmly invite you to participate at the ICP in July 2020, to share scientific results and to exchange opinions – in the spirit of ‘Open Minds, Societies and the World.’

Sincerely,
Stanislav Štech
ICP 2020 President

You are cordially invited to submit abstracts, present papers, symposia and posters at ICP 2020 and attend the congress.
